## **BAHEP welcomes Houston Precision Fasteners**

**BAY AREA HOUSTON, TEXAS** – Houston Precision Fasteners manufactures high strength, fatigue rated, close tolerance, precision fasteners and fittings for the aerospace and defense industries. The company is one of the newest members of the Bay Area Houston Economic Partnership.

BAHEP President Bob Mitchell stated, “Many of our industries would not be in business without the types of products manufactured by Houston Precision Fasteners. These fasteners and fittings are mission critical to the aerospace industry, which is one of the major employers in Bay Area Houston. We gladly welcome Houston Precision Fasteners to BAHEP.”

Dan Hunt, vice president of Houston Precision Fasteners, represents the company within BAHEP. “Our clients include Boeing, Lockheed Martin, and Northrop Grumman, who are members of BAHEP, as well as SpaceX. Our interests are all interrelated; therefore, it is appropriate to give our support to BAHEP and its other members who, in turn, support this region so well,” he said.

Houston Precision Fasteners fabricates standard and custom-designed parts to exact specifications. Parts are supplied with HPF’s certificate of conformance and test reports at no charge.

Hunt reports that HPF’s capabilities are expanding exponentially (Materials Testing – Tensile, Fatigue, Double Shear, Stress Durability, Metallurgical Examination (Micro/Macro), Positive Material Identification (PMI); Recess Torque Testing; Magnetic Permeability; NDT - Liquid Penetrant; Salt Spray Corrosion Testing; Heat Treatment; & Surface Treatment/Coatings

(Passivation, Aluminum Coating (Spray Application), Ceytal Alcohol, & Dry Film Lubricant). This allows HPF to fast-track and/or expedite orders in as little as three to four weeks on most fasteners.

Houston Precision Fasteners is located at 4923 Cranswick Road, Houston, Texas 77041-7723. For more information, visit [www.hpfasteners.com](http://www.hpfasteners.com) or call 713.462.2227.
