A2B Solutions, LLC, joins BAHEP

BAY AREA HOUSTON, TEXAS – Founded in 2009, A2B Solutions, LLC, is a start-up company providing management consulting services to clients that support federal government agencies. Sam Boyd, A2B Solutions president, was formerly president and COO of MEI Technologies Inc., a national technology company.

“We have worked with Sam for many years and hold him in high regard not only as an outstanding individual but also for his management expertise. The Bay Area Houston Economic Partnership is pleased that he has chosen to continue his connection to us through the membership of his new company,” stated Bob Mitchell, BAHEP president.

A2B Solutions provides several areas of support that include growth strategy, marketing and business development. The company also focuses on assisting small businesses in transforming their companies to mid and large size enterprises. A2B Solutions’ clientele consists mainly of federal government aerospace firms located across the United States.

Boyd commented, “One of the mainstays of any successful company is the strength of its relationships. Through BAHEP, I’ve been fortunate to have established great relationships within the aerospace community already, and I look forward to continuing our work together on behalf of the industry and the region.”
