- Collaboration with M.D. Anderson Cancer Center to provide advanced diagnostic, screening, radiation therapy, medical and surgical cancer services at University of Texas M.D. Anderson Cancer Center Radiation Treatment Facility in the Bay Area located on St. John campus.
- Comprehensive Cardiac and Cardiovascular Center including Accredited Chest Pain Center and the only facility that participates in all three *Get With The Guidelines* programs for Heart Disease and Stroke as certified by the American Heart Association.
- Largest sports medicine and pediatric rehabilitation program in Southeast Houston area, with clinics located in Nassau Bay, LaPorte, Friendswood, Bay Colony and Texas City.
- Identified as one of the “Best Places to Work” in Houston by the Houston Business Journal
- First obstetrical facility in the Houston area to offer LDRP (Labor/Delivery/Recovery/Post partum) birthing suites. “Five Star” rated Maternity unit.
- Highest rated hospital in Bay Area on [www.hospitalcompare.hhs.gov](http://www.hospitalcompare.hhs.gov)

### Patients

- Over 130,000 patient visits and admissions in 2006.

## **Total Number of Physicians and Full-time Employees**

- Almost 500 physicians encompassing over 40 medical specialties and subspecialties.
- Over 700 fulltime employees.

## **Community Outreach Programs**

CHRISTUS St. John Hospital fulfills its mission to extend the healing ministry of Jesus Christ through numerous outreach programs:

- CHRISTUS Home Health Care provided by Visiting Nurse Association of Houston
- Point of Light Clinic in Dickinson and School Based Health Centers in elementary schools serve uninsured or under-insured children and families.
- Parish Nurse/Health Ministry Program and The Gabriel Project established by St. John now functions through local churches, with support from the hospital.
- Strong community partnerships are a priority with CHRISTUS St. John. Building a better community for the families we serve is an extension of our mission. Associates are actively involved in numerous Chambers of Commerce, school districts, service organizations and non-profits that support under served residents
- CHRISTUS St. John Fund, hospital foundation, raising much needed dollars for outreach projects, helping the uninsured, and assisting with major capital improvements at the hospital. Over \$700,000 was raised this year through annual and major gifts, corporations and foundations.

## **New Programs and Initiatives**

Working in collaboration with St. John Hospital, M.D. Anderson brings patient care excellence and the very latest in radiation oncology therapy beyond the Medical Center and into your neighborhood. M. D. Anderson Cancer Center Radiation Treatment Center is located on the St. John campus.

CHRISTUS St. John has the only GE 64 VCT Scanner in the Bay Area. This equipment is the most advanced in the market, providing non-invasive 3D heart images. Being the latest in imaging technology, it allows for the most comprehensive preventative care and is a perfect option for those with a family history of heart disease.

Our MRI Department offers state of the art imaging performed on the very first GE HD-x 1.5T MRI system in Houston, which includes breast imaging utilization.

A new Critical Care Center plays host to a variety of the newest and most cutting-edge technologies available. The 13,000 square foot CCC expansion is the best choice in the area for this level of care.

Continuing our commitment to provide world class technologies and advancements, CHRISTUS St. John Hospital has broken ground on a \$7 million expansion project that includes more than 20,000 square feet of new and renovated space to the Emergency Care and Chest Pain Center and Women's Imaging Pavilion. The expansion also includes investments in the latest imaging technology that will enhance the hospital's collaboration with the M.D. Anderson Radiation Treatment Center. The ECC expansion doubles the number of patient care rooms; six rooms will be fully equipped cardiac emergency response rooms. Improved EMS drop off bays and an expanded waiting area are also included.

## **Mission**

The mission of CHRISTUS St. John Hospital is *to extend the healing ministry of Jesus Christ*. Providing top rated patient care, exponentially more advanced technology, and access to a highly qualified medical staff is our commitment to the Bay Area residents. We can keep you closer to home for all your medical needs.
