BAHEP adds Computer Sciences Corporation to membership roster

BAY AREA HOUSTON, TX – Computer Sciences Corporation, Applied Technology Division (ATD) has joined the Bay Area Houston Economic Partnership as one of its newest members. Computer Sciences Corporation, founded in 1959, is a leading global information technology services company. CSC's mission is to provide customers in industry and government with solutions crafted to meet their specific challenges and enable them to profit from the advanced use of technology.

Bob Mitchell, president of BAHEP, welcomed CSC's addition by saying, "Computer Sciences Corporation's reputation for excellence is well known in the aerospace/aviation and engineering services industries and among the government and municipality sectors as well. We are fortunate to have them as one of our partners."

ATD provides solutions that embody the full spectrum of the CSC North American Public Sector (NPS), which specializes in tailored solutions for information technology, business operations, and specialized engineering applications. The company focuses on large, stand-alone contracts that require site-specific business models. By infusing technology and innovative processes into all its programs, CSC believes that it can provide greater value to its customers. ATD's range of expertise reflects the complex and mission-critical nature of its customers' requirements.

With approximately 89,000 employees, CSC provides innovative solutions for customers around the world by applying leading technologies and CSC's own advanced capabilities. These include systems design and integration; IT and business process outsourcing; applications software development; Web and application hosting; and management consulting. Headquartered in Falls Church, Va., CSC reported revenue of \$15.5 billion for the 12 months ended Sept. 28, 2007.

Locally, CSC's nearly 300 employees operate the mission control power plant and provide operations and maintenance support services for facilities at NASA-Johnson Space Center. Specifically, CSC provides facility repair and maintenance, utility operations, engineering, construction, energy management, and environmental, safety and quality support services throughout the Johnson complex, the Sonny Carter Training Facility and Ellington Field.

Michael Matteson, Program Manager, spoke about the company's decision to join BAHEP. He said, "CSC recognizes the importance of supporting the communities where we work. The broad integration of BAHEP will help us understand the local business community and support the mission at JSC."
