BAHEP welcomes Innovative Technologies Inc.

BAY AREA HOUSTON, TEXAS – Innovative Technologies Inc. (ITI) is a seasoned, full-service visual communications company delivering information technology, multimedia and engineering solutions to a wide portfolio of government clients. ITI's experience includes high-end multimedia, television integration solutions, on-site management, maintenance and sustained engineering of these operations. The company's IT specialists are experts in software engineering and development of Web-based portal applications. ITI has matured into a multi-faceted company supported by a diverse staff from a wide range of professional, technology and media backgrounds.

"Innovative Technologies has been honing its craft for almost two decades. We're pleased to welcome a company with this kind of dedication and track record as a new member," stated Bob Mitchell, president of the Bay Area Houston Economic Partnership.

Lamont Hames is ITI's director of Visual Management Services. He said, "We've been in business long enough to recognize that community involvement is essential to the health of an organization. BAHEP supports industry and cities throughout the region, and we wanted to take an active role as part of this dynamic group."

Innovative Technologies' clients include government agencies such as NASA, the Department of Defense and the U.S. Department of Housing and Urban Development as well as quasi-government agencies such as the International Broadcasting Bureau/Voice of America and the International Monetary Fund.

ITI was founded in 1991, and its headquarters is in Chantilly, Va. The Bay Area Houston office is located at 16850 Saturn Lane, Suite 100. For more information, visit www.iti-corp.com.
