The University of Texas M. D. Anderson Cancer Center – Bay Area joins BAHEP

BAY AREA HOUSTON, TX – The University of Texas M. D. Anderson Cancer Center is extending its services beyond the Texas Medical Center and into the Bay Area. Located on the campus of CHRISTUS St. John Hospital, the M. D. Anderson Clinical Care Center in the Bay Area offers radiation therapy, chemotherapy, medical oncology, a pharmacy for patients, laboratory services, and a blood donation center.

Bob Mitchell, Bay Area Houston Economic Partnership president, stated, “The M. D. Anderson Cancer Center in the Texas Medical Center is world renowned for its expertise. To have those same services available in Bay Area Houston is definitely an asset, both personally and economically, for residents of the region.”

M. D. Anderson’s care team includes oncologists, nurses, radiation therapists, laboratory and pharmacy technicians, all of whom are trained and employed by M. D. Anderson. The care center offers convenience, direct appointment scheduling, and free parking for patients in the Bay Area. When asked why it is important for the new center to belong to BAHEP, Annie Starkey, community relations specialist, for M. D. Anderson, replied, “The University of Texas M. D. Anderson Cancer Center is proud to join BAHEP. We believe our recent move into the Bay Area will contribute to the existing collaboration and cooperation among healthcare providers in this region. Our physicians and staff are dedicated to work closely with other BAHEP healthcare members in providing excellence in patient care, research, and education services. These are key components of our mission and initiative to extend M. D. Anderson’s expertise and services from the Texas Medical Center to a community setting.”

The clinical care center is located at 18100 St. John Drive in Nassau Bay, off NASA Parkway near the Lyndon B. Johnson Space Center. For more information visit www.mdanderson.org/bayarea or call 713.563.0670 or toll free 866.913.9876.
