### Services

The Eye Clinic of Texas is a full service ophthalmology practice offering the following:

- Laser Vision Correction, more commonly known as LASIK
- Detection and surgery for cataract removal including ReSTOR and Crystalens implantation
- Foreign body removal and treatment for infections
- Treatment and detection of glaucoma, diabetic retinopathy, and other eye diseases.
- Comprehensive pediatric exams to detect strabismus, amblyopia or other eye diseases.
- Oculoplastic surgery such as botox and corrective lid surgery

### Patients

The Eye Clinic of Texas provides approximately 19,000 patient encounters each year, either as office or surgical procedures.

### Total Number of Physicians and Employees

The Eye Clinic of Texas has three full time ophthalmologist, three part time ophthalmology specialists, one optometrist and 24 employees.

## **Community Programs**

Seminars are held in the League City office on a monthly basis to offer advice and also give patients' options regarding their eye care needs for Laser Vision Correction. The Eye Clinic of Texas participates in health fairs and provides speakers to give lectures at many area events. The Eye Clinic of Texas also works closely with Prevent Blindness and assists with eye exams when needed.

## **Mission**

The mission of The Eye Clinic of Texas is to provide patients the highest quality eye care available. We pride ourselves by offering state of the art equipment, in a friendly, yet professional atmosphere.
