The Green Event Center offers one-of-a-kind venue in Bay Area Houston

BAY AREA HOUSTON, TEXAS – The Green Event Center, which can seat up to 250 guests in an elegant, 5,000 sq. ft., five-star interior, is the only LEED certified event center in the area. It is located at 2000 West Parkwood, Suite 200, in Friendswood, Texas, and includes a built-in, full audio visual capacity, wireless internet, and systems that monitor and reduce CO2 levels, as well.

Bay Area Houston Economic Partnership President Bob Mitchell stated, “As America becomes more and more conscious of the importance of green living, the demand for LEED certified buildings can only increase. We’re fortunate to have The Green Event Center already meeting the demand in Bay Area Houston.”

Holly Mickler, president of The Green Event Center, noted, “I believe that we fill a unique niche as an event venue, and we’re certainly looking forward to establishing mutually rewarding relationships through actively participating in BAHEP’s many worthwhile activities.”

Mickler added that outside catering at the center can be created for groups of all sizes from 15-800, which makes this the perfect place for an executive retreat, board meetings, training, product presentations, or any other business function. The Green Event Center also caters to special events and weddings. With a fully-equipped kitchen, the center’s executive chef can customize any breakfast, lunch, appetizer, or dinner menu to fit any occasion.
