## **Titan Testing & Engineering Services joins partnership**

**BAY AREA HOUSTON, TX** – Bay Area Houston Economic Partnership’s newest member, Titan Testing & Engineering Services Inc., is a Texas based corporation as well as a Texas owned and accredited multi-disciplined engineering firm. Its primary purpose is to provide prompt, accurate, cost effective, and comprehensive construction materials testing and inspection services, geotechnical investigations, and environmental assessments. The company works on public, commercial, and industrial projects throughout Texas and surrounding areas.

Bob Mitchell, president of BAHEP, commented, “Titan’s engineering and testing expertise helps to ensure that development and construction projects in the Bay Area Region proceed smoothly and according to established standards of excellence. We’re happy to include them as part of our membership team.”

Titan’s construction materials testing and inspection includes soils, asphalt, concrete, steel, masonry, etc. Its geotechnical engineering includes sub-surface exploration and soil borings, laboratory testing, engineering analysis and evaluations, recommendations pertaining to foundations, paving, slope stability, and more. The company’s environmental engineering includes site assessments, underground storage tank contamination studies, and monitoring of well installations.

When asked why he felt it was important to join BAHEP, Mike Hashem, Titan principal, said, “Bay Area Houston Economic Partnership plays a vital role in the advancement of regional economic development by forging the necessary partnerships between business, government, and other organizations that are essential in the growth and high quality of living enjoyed by residents in the community. Having been raised in the Bay Area, I feel fortunate and proud to be a member partner, and I look forward to assisting BAHEP in its leadership efforts.”

Titan Testing & Engineering Services Inc. is accredited by the American Association of Laboratory Accreditation in the areas of construction materials engineering as well as construction materials testing and inspections. Its offices are located at 8922 Frey Rd., Suite D, in Houston. For more information on the company, please visit [www.titantesting.net](http://www.titantesting.net).
