BAHEP welcomes Walker Parking Consultants

BAY AREA HOUSTON, TX – Walker Parking Consultants was founded in 1965 and has evolved into the largest “parking only” consulting and design firm in the United States with 13 offices, over 300 employees, and more than 8,000 completed parking projects. The company is the newest member of the Bay Area Houston Economic Partnership. BAHEP President Bob Mitchell commented, “Walker Parking Consultants has received numerous awards for its excellent work, some of which can be seen in the portfolio on its Web site. We are very pleased to welcome such a talented group into our membership.”

Gina M. Holstien is Walker’s Director of Business Development. She stated, “BAHEP is a long-standing leader of the Bay Area Houston community, and it offers substantial networking opportunities. We feel that it’s important to belong to and be active in such a dynamic organization.”

According to Walker Parking Consultants, parking has evolved over the years into a central part of the design and implementation of the environments where we live, work, and play. Walker has wide-ranging experience in all aspects of the parking business, including: master planning, operations and management, financial analysis, functional design, engineering/architecture, and facility restoration and maintenance.

One of the hallmarks of the firm is its unique ability to effectively identify problems and efficiently recommend solutions for all parking related issues. Its full range of consulting services runs the gamut from initial feasibility studies through final design. This, along with its proven track record of sustainable, well-designed, cost conscious parking projects, has enabled Walker Parking Consultants to take care of all of its clients’ parking consulting, engineering, and restoration needs.

Holstien noted, "We are confident in calling ourselves the leading parking consulting company in the nation. To us, it's not just about concrete and steel; it's about ensuring that our parking facilities are state-of-the-art, technically sound structures that leave an environmentally attractive footprint on the ground where they are constructed."

Walker's Bay Area Houston office is located at 17049 El Camino Real, Suite 202. To learn more about Walker Parking Consultants, visit www.walkerparking.com or call 281.280.0068.
